FULL-SITE DESIGN WALKTHROUGH

One CoDIN.
Many ways in.

The approved landing-page direction, carried into the places people explore, learn and return to.

Review edition

Public pages + learning

All schedules, resources and learning materials are illustrative.

START HERE

The landing page ↗

The agreed multimedia layout, open diary and activity desk.

01 / PUBLIC PAGE

W2M Academy ↗

Learning-led entrance, programme formats and course discovery.

02 / PUBLIC PAGE

Course overview ↗

Dates, learning outcomes, modules and enrolment states.

03 / LEARNING

Learning space ↗

Materials, video, notes, progress and course navigation.

04 / PUBLIC PAGE

Our centres ↗

Three research homes, each connected to visible work.

05 / PUBLIC PAGE

Centre detail ↗

Questions, associated projects, updates and resources.

06 / PUBLIC PAGE

Events & gatherings ↗

An ongoing-first programme list with a compact status switch.

07 / PUBLIC PAGE

Event detail ↗

A programme, practical details and lifecycle-aware actions.

08 / PUBLIC PAGE

Our projects ↗

Project cards with latest work and progress context.

09 / PUBLIC PAGE

Project detail ↗

An ongoing work log, approach and reusable outputs.

10 / PUBLIC PAGE

Resources & publications ↗

A searchable library of material others can use.

11 / PUBLIC PAGE

Resource detail ↗

Readable context, reuse information and supporting metadata.

12 / PUBLIC PAGE

About CoDIN ↗

Purpose, ways of working and paths to people and centres.

13 / PUBLIC PAGE

People & governance ↗

A restrained directory and governance navigation.

14 / PUBLIC PAGE

Custom learning ↗

An inquiry-led route for tailored learning programmes.

FOR TEAM DISCUSSION

Review the journey, not only the screen.

Find a way in.

Start at W2M, a centre, an event or a project. Check that the next step is obvious.

Follow the work.

Move from a centre to a project and then to its resources. Look for what changed and what comes next.

Try learning.

Open a course, enter the demonstration classroom, switch materials and write a practice note.

Download the page review PDF ↓

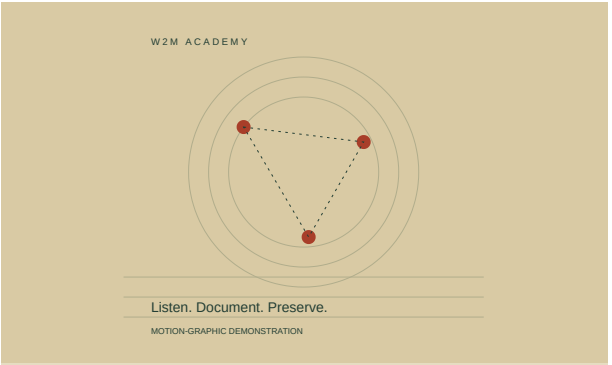

W2M ACADEMY / LEARNING TOGETHER

Curiosity, with *somewhere to go.*

Courses, shared practice and conversations that connect learning with the work around us.

ABOUT THE LEARNING

From a question to a considered practice.

This example course introduces the choices behind field documentation: preparing a session, listening with care, keeping context and reflecting on what a record leaves out.

What you'll explore

- Planning around people, purpose and context
- Keeping meaning beside a recording
- Reviewing and organising documentation

Who it's for

Learners approaching documentation, archives and language research. The final programme would state prerequisites and access requirements here.

LEARNING PATHWAY

A course you can look inside.

01 **Listening before recording**

Relationships, purpose, access and the context of a record.

Preview learning materials →

02 **Planning a documentation session**

03 **Reflecting on field practice**

Before you join.

▶ How does access to materials work?

▶ Where will fees and registration appear?

MODULE 01 / STARTING IN THE FIELD

Make room for context.

01 Listening before recording
Reading

02 Planning a documentation session
Video & worksheet

03 Reflecting on field practice
Reflection

Your progress 0 / 3

Illustrative lessons. Notes and progress reset on reload.

LESSON 01 / READING

Listening before recording

A documentation session starts before the recorder is switched on. Consider the purpose, the people involved, what should be kept and who should have access to it.

What should remain alongside the recording?

Your practice notes

Keep a question, an observation or a next step. Visible only in this preview tab.

Start with a question…

Mark this lesson complete

COUNCIL FOR DIVERSITY AND INNOVATION

Many voices. *Shared possibilities.*

CoDIN connects language diversity, cultural knowledge and inclusive technology through research, learning and collaboration.

OUR PURPOSE

Knowledge is richer when more people can shape it.

Languages carry ways of understanding the world. Cultural records hold context, memory and possibility. Technology can make space for them when it is developed with care.

This design gives the work a visible rhythm: the question, the people involved, what is happening and what others can learn or reuse.

Explore our research homes ↗

W2M ACADEMY / LEARNING FOR YOUR TEAM

Start with *your question.*

An inquiry-led pathway for a workshop or learning programme shaped around a group's context.

A CONVERSATION BEFORE A PROGRAMME

What would help your team move forward?

Start with the problem, the people and the kind of practice that would be useful.

Your context

Who will take part, and what work are they doing?

Your question

What method, knowledge or practice would help?

Your format

What time, place and access arrangements could work?

Tell us where you're starting.

An initial conversation can help establish the scope and whether there is a suitable fit.

Talk to CoDIN ↗
